2021 Short Walking Excursions

Each year we send out a general consent note to parents relating to **short walking excursions**. This includes the perimeter of the school just outside the school fences and Bill Whalley Reserve. We may use these areas for activities such as class fitness or sport, community service activities and content-based learning activities. On occasions when we do use the area around the school, or Bill Whalley Reserve, no roads are crossed and we always adhere to our WHS risk assessment developed specifically for these occasions.

Regular permission notes will be sent home for any excursions or activities outside the school that involve travel of a greater distance, including bus travel or any other variations to what has been outlined above.

Please sign and return the note below to your class teacher so students can participate in short walking excursions as the need arises. **It is important that this note is returned to ensure your child is able to participate in these activities.**

If you do not give permission for your child to participate in these activities, contact the school so we can discuss this matter further.

Please contact the school if you have any questions.

Regards,

Steve Mead
Principal

Short/Local Walking 'Excursions'

I give permission for my child to participate in school related activities that use the area immediately surrounding the school including Bill Whalley Reserve under the supervision of Carlton Public School staff. I am aware that children will not be crossing roads during these activities and that an additional permission note will be sent home for any other activities.
